

## MacTalk Hunter Monthly Meeting Wednesday 4th November 2015

Apologies; David F, Rosemary

Minutes tabled.

Business Arising Nil.

Treasurer \$3043.11

### General Business:

Issues with slow mail discussed.

Bernard Murray once again saved the day. \$300 all up repair ... HDD replaced and restored from Time Machine backup.

The Moral of the story MAKE SURE YOUR TIME MACHINE BACKUP IS WORKING.

Restarting your Macintosh from the recovery partition. Hold down the command key and Press "R" or hold down the option key while the machine is booting. This brings you to the screen where you can select the recovery option. Once the machine has booted into the recovery partition you can select disk utility and do some repairs or even restore from a Time Machine backup.

Surge protectors are a consumable item. They wear out when they have to stop a surge. Buy a good one but you probably don't need to buy a really expensive one.

Remember that external hard drives and printers can also be damaged from an electrical surge.

### Q & A Main talk – Games on the Mac and IOS

Magic jigsaw puzzles

Words with friends

Word streak

Janga HD

Cut the the rope

Angry birds

Ruzzle

Clash of Clans free

Fruit ninja
